The worderful cures offected by Swaim's Panacea have for many years made it an invaluable remedy, and have occasioned unprincipled persons to imitate it, and thus impose on the discussed and afflicted. Almost daily we are informed of several who have been deceived in this city.

Swaim's, Panacea is in round bottles, fitted med of several who have been deceived in this city.

Swaim's Panacea is in round bottles, fitted ongitudinally, with the following letter, blown on the glass:

"SWAIM'S—PANACEA—PHILADA."

Having the name of JAs. Swaim stamped on the sealing wax and written on the label covering the cork, and a splendid engraving on the side of the bottle, by Draper & Co. bank note engravers, in the centre of which is a pertrait of the late Wm. Swaim (copyrightsechred.)

If persons purchasing the Panacea will be careful to observe the obove caution, and that the name Swaim is correctly speiled, they need not be imposed on.

Pre ared only at Swaim's Laboratory, the old stand. South Seventh Street, below Chestmat, Philadelphia, and sold by all (ruggists in the aperient they afford prompt and sure relief in Costiveness, Piles, Colie Dysentery, Humors, Scrofula and Scurvy, Colds with screness of the body, Ulcers and impurity of the blood, Irregularities; in short, any and every case where a purgative is required.

They have also produced some singularly successful cures in Rheumatism, Cont, Dropsy, Gravel, Erysipelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of seasons An occasional dose stimulates, the stomach and bowels into healthy action, and restores the appetite and vigor. They purify the blood, and, by their stimulant action on the circulatory system, renovate the strength of the body, and restore the wasted or diseased energies of the whole organism. Hence an occasional dose is advantageous, ever though no serious derangement exists; but un-necessary dosing should never be carried too far, as every purgative medicine reduces the strength, when taken to excess. The thousand cases in which a physic is required cannot be enumerated here, out they suggest themselves to the reason of every body; and it is confidently believed this pill will answer a better purpose than any thing which has hitherto been available to mankind. When their virtues are once known, the public will no longer doubt what remedy to employ when in need of a cathardic medicine. Being sugar-wrapped, they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.
